A Striking Example of ProjectStone's Environmental Commitment.

The entire SurroundStone production process demonstrates our company's commitment to environmental responsibility. ProjectStone utilizes ecological safe solvents and adhesives, and we keep emissions to a minimum. We also make every effort to recycle and reuse all waste materials, to optimize water usage through reclamation and filtrations processes, and to minimize dust emissions in all phases of production.

ProjectStone has been awarded the Greenguard® certification for indoor air quality by meeting the rigorous standards for low-emitting materials. Greenguard Environmental Institute (GEI) is an industry-independent, non-profit organization whose mission is to improve public health by helping manufacturers build safer products.

Perfectly Elegant For Shower & Tub Surrounds
 SurroundStone offers all the luxury and beauty of natural stone but with qualities that are ideal for today's multiple bathroom installations in hotels, apartments and condominiums. Made exclusively by America's leading supplier of custom natural stone, SurroundStone is a handsome alternative to tile or cultured marble. And because it's produced from 100% recycled marble, it's an environmentally responsible one as well.

About SurroundStone

The look, the feel, the luxury of natural stone, with qualities that make sense for today's bathroom installations.

SurroundStone® is the ideal choice for shower and tub surrounds in hotels, apartments and condominiums. Stronger than granite, and longer lasting than other stones or laminates, it's a material that's as practical as it is beautiful. Made of 100% recycled marble and developed exclusively by ProjectStone®, SurroundStone is an affordable and environmentally responsible alternative to tile or cultured marble.

Unlike the traditional stone slab, SurroundStone is produced in panels that are thin enough to apply with glue. Ideal for hotel refurbishments, it can be placed directly over existing tile, substantially reducing installation costs.

Bianco

01.

Reminiscent of white sandy beaches, Bianco is a soft off white with specs of gray and beige. This lovely neutral shade is the most versatile in the SurroundStone line, complimenting virtually any color scheme and décor. Simple, yet strikingly elegant, the softness of the Bianco shade has a luxury all its own.

Nuvolato

02.

A stunning shade of tan, with specs of white, darker beige and slight hints of latte and gray, Nuvolato has a creamy richness and sensual sophistication. It's a perfect accent for a wide array of colors, including warm reds and browns, even black, calling to mind fields of grain warmed by the intense Mediterranean sunshine.

Bronzetto

03.

A rich, regal bronze color highlighted with slight specs of gold and white, Bronzetto is a gorgeous shade with just a hint of sparkle. The perfect compliment to a variety of colors, Bronzetto is as versatile as it is luxurious, making it a favorite of designers who love its subtle tones and many possibilities.

Crystal Carrara

04.

Richly contoured with shades of tan, white, brown and hints of gold, the sensual colors of Dolce de Leche, the classic Old World elegance of Crystal Carrara is also surprisingly versatile. It works well in contemporary as well as more traditional settings, and brings out the richness of any other colors you use along with it.

Bocelli

05.

Smoky gray and white, with ever so slight hints of brown, Bocelli is sleek, striking, and sophisticated. It calls to mind the classic marble sculptures you'll find in the great capitals of Europe. Neutral, to be sure, but so luxurious, Bocelli lends a cool, subtle grace and richness to any bath or powder room.
